Devoted to the Interest of Jackson County Schools. Teachers and all Interested in Education are Requested to send in Items.

School Attendance The Best In Many Years.

As I have just about completed my first round visiting the schools of Jackson county, and have visited several of the second time, I am glad to report the schools in excellent condition. The attendance is good, (the best in years) and the parents are taking an active part in sending their children.

I want to thank the Supt. of the county the County Board of Education and the teachers of the various schools for their co-operation in the school work.

I also want to thank every parent and every pupil of the schools for their kindness to me.

I hope the parents will continue to send their children to school, as in regular attendance and alone study is the pupil benefited. When they miss one day it hurts them. Parents please send your children to school every day possible.

Pine Lick School Organize Improvement Society.

The Pine Lick school has organized an improvement society which has as its purpose the improve of our school, and will back any movement that is for that purpose. It has been named the "Pine Lick School Improvement Society" and the following officers elected: Ruby Jenkins, president; Vallie Allen, vice president; Bennie Kemp, secretary; Elsie Denton, treasurer.

Friday night, Sept. 30th, the society gave a pie supper, which was quite a success. The highest pie sold for \$12.50. It belonged to Bennie Kemp and was bought by Renford Allen. Mrs. Will Kemp brought a cake to be awarded to the prettiest girl present. The cake went to Vallie Allen. The total proceeds of the pie supper was \$30.

Friday, Oct. 7, we will have a

THE U. S. USCO TREAD

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

"Fresh, live U. S. Tires come direct to the dealer from his neighboring Factory Branch."

Which one of your neighbors gets the best mileage out of his tires?

EVERY once in a while you hear a motorist say as he kicks a rear tire with an admiring foot, "there's a lucky tire!" Give him a chance and he'll tell you all about it. And then you'll find that what he calls "luck" is simply his first experience with a *quality standard tire*.

It all comes to this—buy a U. S. Tire anywhere in this country and you get definite, predictable value for your money no matter what weight car you drive.

The man who has been guessing his way through "overstocks," "discontinued lines," "job lots" and the like, will find it refreshing to talk with the local U. S. Tire dealer who is *concentrating* on a full, completely sized line of U. S. Tires.

For the first time he will hear some straight *quality tire facts*—and get the difference between chance and certainty in tire buying.

The U. S. Tires he sees in stock are *fresh, live tires*. They come direct to the dealer from his neighboring *Factory Branch*.

There are 92 of these Branches established and maintained by the U. S. Tire makers.

Giving your dealer a continuous moving stock of new, fresh tires built on the *certainty of quality first every time*
